The initiative aims at contributing to the improvement of knowledge, application and interpretation of EU competition law, particularly with regards to the private enforcement of competition rules, by creating and disseminating an innovative video-training module. The video recordings of two training seminars will form the basis of the module. The project has a dedicated platform that will host the module and the live feeds of the events.

The project is financed by the European Commission, DG Competition. Its content reflects only the authors' view and the Commission is not responsible for any use that may be made of the information it contains.
